

Armony

Folding arm
awning with
cassette

Our top of the range model, a beautiful contoured fully cassetted system, Italian design at its best.

A fully cassetted system suitable for larger residential and commercial applications up to 12 metres wide and 3.6 metres arm length.

Armony Cassette folding arm awnings

This system features durable chain linked arms and is suitable for larger residential or commercial installations. It is engineered to project up to 3.6m (arm length) and span 12m in width when the profiles are joined. For ease of operation, we strongly recommend that awnings of 6m and over be motorised.

All the aluminium profiles are powder coated in white (RAL 9010) as standard (other colours can be powdercoated as an option) and include an internal profile to support the structure, along its full length, eliminating the need for individual roller supports.

It is an easy system to install as the complete awning simply hooks onto the standard face fixed installation brackets. Top fix brackets are available if required as an optional extra.

Wind resistance (at maximum dimensions)

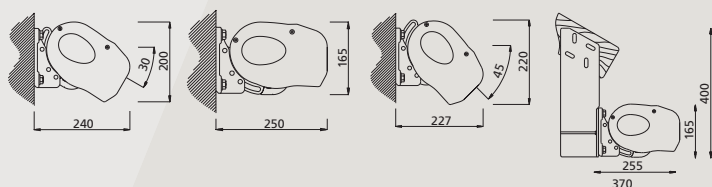

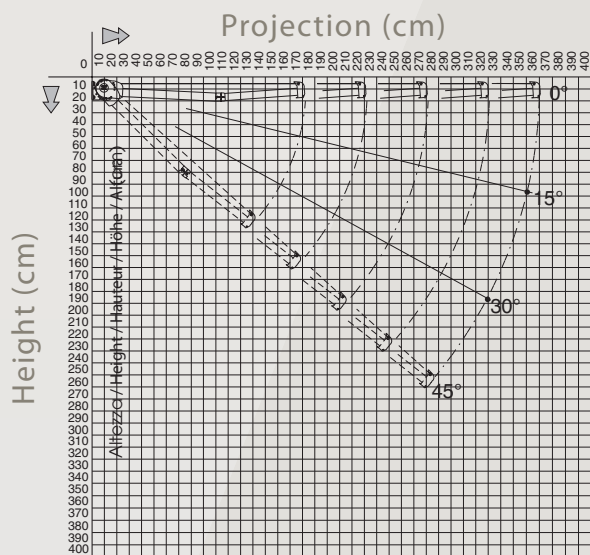

Class tested by TÜV according to EN 13561:2004	2 (cm 500 x 310)	1 (cm 600 x 360)
Nominal test pressure p (N/m ²)	70	40

Overall dimensions and weight (1 pair of arms)

Width (cm)	600
Projection (awning open) (cm)	360
Approx. weight (kg)	70 - 80

PROJECTION	MIN WIDTH
160	205
210	255
260	305
310	355
360	405
