vision is an innovative new window blind that features two layers of translucent & opaque horizontal striped fabric

contemporary shading
stylish practicality

Easy to use, a single control is used to slide the opaque and translucent woven stripes past each other. The same operation is used to raise or lower the window blind to any height in the window with ease, in the same way the classic roller blind would.

The front layer moves independently of the back allowing the stripes to glide between each other creating an open and closed effect, with limitless light control.

Sliding the fabric into a closed 'opaque-opaque' position allows full privacy and an impressive block of beautiful fabric at your window, whilst the 'translucent-opaque' position creates a stunning striped statement.

vision is a **stylish fabric** that gently filters & softens daylight
whilst also offering you the option of a **privacy blind**

The Vision blind combines the ideal balance of privacy and light control with the fashionable, eye-catching trend of bold stripes and colour blocking.

With a Vision blind you will enjoy the very best in quality, manufacture and design, along with the practicality of a low maintenance window blind.

The exceptional Vision range features sheer metallics, delicate subtle tones and natural wood weave effects, the perfect collection for any room in the home.

bespoke details

The contemporary style of the Vision blind can be set off perfectly with an Open or Closed Cassette, which conceals the mechanism of the blind neatly. You have a number of ways to personalise the blind with the headrail; white or black to match or contrast with the fabric, the flat open cassette option or the fuller curved closed cassette and finally, with or without a matching fabric profile. The choice is yours!
